#### Important event to report:

Firebyte Games S.A. informs the investors that, through the Turkish subsidiary *Firebyte Games Yazılım Ticaret Limited Şirketi*, it was decided to involve the company in the development of a *GameFi* metavers called "Age of Battles", in the field of blockchain technology, together with *Polygon Studios and IndiGG* as founding investors.

The "Age of Battles" project will be launched on the Polygon blockchain (MATIC). The Polygon platform hosts over 7,000 applications, has over 2.7 million monthly active users, generating over 3 million transactions daily. The capitalization of the Polygon Platform is over USD 10 billion.

The "Age of Battles" (AOB) metaverse is a collection of strategy games in a "Free2Play" and "Play2Earn" system that will be available on both in mobile and PC versions. Age of Battles aims to operate in a decentralized environment, in which the community of players and investors (AOB token holders) govern the project.

Within the project, Firebyte Games will provide product development services in the "Age of Battles" metaverse and will benefit from the amounts corresponding to the 3 rounds of financing

(*seed, private sale, public sale*). At the same time, the company will own 4% of the total number of virtual coins (AOB tokens) that will be issued during the life of the project.

The first round of financing (*Seed*), coordinated by *Polygon Studios*, is currently underway, with the aim of attracting the amount of approximately USD 400,000, in the USDT crypto-currency. At the time of the report, 25% of this round of funding has been subscribed, and will be fully subscribed by the end of April 2022.

The company's management estimates that through the next two rounds of financing (*private sale* and *public sale*) necessary for the development of the "Age of Battles" project, it will be possible to attract cumulative amounts of over 3 million USD.

A much more detailed presentation of the project can be consulted by accessing the website: <http://ageofbattles.io/>

Firebyte Games SA is the first developer of games for mobile devices listed on the Bucharest Stock Exchange (symbol: FRB).
