Firebyte Games SA announces the investors about the release of *Age of Battles* (AOB), in BETA phase.

"Age of Battles" is a battle strategy game that involves collecting cards with warriors and real-time battles with other players around the world. This game is based on a complex set of mechanics involving both strategy and tactics, allowing players to choose and customize different units to adapt to their playing style.

The game offers a variety of customization and progress options, which allows players to develop their skills and improve their units over time. The game has also been optimized to be compatible with blockchain technology and gives players the opportunity to earn cryptocurrencies and other digital rewards for games, including NFT (*Non-Fungible Tokens*) game elements. We believe this is an additional attractiveness factor and can motivate users to play more and get involved in the "Age of Battles" community.

Within the AOB project, a collection of 5,000 NFTs (*Non-Fungible Tokens*) was defined, to be auctioned (sold) between 17.05.2023 and 17.06.2023 on the technology platform managed by partner Euclid Labs Inc. ("*Magic Eden*"). From a financial point of view, the impact of these operations on the financial results of the company cannot be estimated at the date of this current report.

The game "Age of Battles" (AOB) can be downloaded directly to mobile at the following link: <https://aob.ai/>

Firebyte Games SA is the first mobile game developer listed on the Bucharest Stock Exchange (symbol: FRB).
